17. Please describe any specific aspects of the course and/or teaching practices that your instructor used that created or interfered with a welcoming and supportive learning environment that valued and supported equity, diversity and inclusion.

- I really enjoyed the discussions we had in class and it felt really inclusive as well as a supportive environment from the professor. It wasn't about who is right or wrong, but more about if we were understanding and could utilize what we learn to apply it in different career paths we might want to take.
- Overall, a welcoming environment allowed everyone to provide an opinion and incorporate it into the lesson without prejudice.
- The instructor was always professional and while talking about controversial topics.

18. Please describe any specific aspects of the course and/or teaching practices that your instructor used that particularly helped you to learn the material and/or develop your own critical perspectives on the material.

- Breaking down the concepts and theories as well as tying them in with real world issues helps understand how to look at conflicts in the world.
- The instructor always clarified any questions regarding the materials.
- The way in which the material was taught facilitated the understanding. I absolutely loved the articles and videos required for homework they allowed for a deeper understanding of the course. Simply the Professor demonstrated an expertise of the course, which allowed me to learn and ask questions.

19. Please describe any specific aspects of the course and/or teaching practices that your instructor used that helped you to feel engaged with the course material or that encouraged you to feel that you could succeed in the course.

- I think the choice to choose what type of assignment we could do for our mid-term is really beneficial to learning the topics that were discussed in class, mainly because it allowed us to see how we could display what we learned in a format that we were comfortable with. At times professors choose one way to do a mid-term or a final, and I think letting students choose helps with the learning process.
- The instructor would leave a space for discussion that would go beyond the course materials.
- The professor was amazing in providing time to ask questions and email Also the assignments were explained very well therefore there was no confusion on the expectation. Honestly, the midterm and final have been fun completing.

20. Please describe any specific aspects of the course and/or teaching practices that your instructor used that were less helpful for your learning. Optionally you may offer constructive suggestions that might improve their effectiveness.

- I would suggest her to implement in her assignments the standard MLA format.

21. Is there anything else you would like to share about your experience in the course?

- Great professor, hope she comes back to teach more!
- I highly enjoyed the course. I would have loved to have it in the regular sessions and more of her classes.
- This course and the instructor surpassed my expectations.
